Data Source: The data is self-reported by Underground Infrastructure Owners (UIOs).

Exclusions: The report excludes data for Planning, Sewer Lateral, Emergency, Cancel, Test and Void requests. Although efforts were made to include Priority 0 requests in the performance reports starting January 2025, system limitations prevent their inclusion. Since Priority 0 requests account for only a small percentage of total requests, their exclusion has a minimal impact on the overall performance metrics.

Legislative Impact: The new legislative change, Ontario Regulation 136/24, which will take effect on May 1, 2024, will impact the data starting from the last week of April 2024. Consequently, numbers may not add due to rounding.

Note: This report has been updated to reflect the new format, which now shows delivery performance separately for Advanced requests, Single Address requests and the combined total for both.
