

IS THERE AN UNKNOWN

DANGER

CLOGGING YOUR SEWER?

Call **ONTARIO ONE CALL** Before You Clear

1-800-400-2255

IT'S FREE. IT'S EASY. IT'S SAFE.

Call Before You Clear Your Sewer Pipe

Instances of natural gas lines intersecting sewer lines are rare but they have been found across Ontario. Cross bores may be present for years with no indication or immediate hazard prior to a sewer blockage. However, once clearing equipment is used outside the walls of a building, there is potential for this equipment to damage a gas line.

Here's How To Protect Yourself

STEP 1

If you have a backed-up sewer, call Ontario One Call at **1-800-400-2255** before you or a plumber attempts to clear the line. This service is **free**.

STEP 2

Ontario One Call will notify the service provider in your area who will verify within 1-2 hours if you do or do not have a cross bore on your property.

STEP 3

If there are no cross bores, clearing activities can proceed. If there is a potential cross bore, the appropriate utility will be notified to fix the issue.
