1. Introduction

Section 5 of the *Ontario Underground Infrastructure Notification System Act, 2012* (the “**Act**”) specifies who is a Member of Ontario One Call (“**OOC**” or “**the Corporation**”). To fulfill its obligations under the Act, OOC maintains a list of Members to whom notifications are provided when a locate request is submitted by an Excavator.

This Policy describes the principles by which OOC will offboard Members when they no longer meet the Membership conditions.

The Policy creates a framework to offboard underground infrastructure owners from their Membership in the Corporation when the Member ceases to meet the criteria for Membership. It seeks to balance the burden on Excavators that arises when Members stop responding to locate requests by providing a mechanism to offboard Members in defined circumstances.

2. Scope of this Document

This Policy applies to all current Members and all former Members who were offboarded under this Policy.

Where conflicts exist between this Policy and the Act or other governance documents, the Act and its regulations, the Corporation by-laws and the Corporation Rules for Underground Infrastructure Owners and Excavators in this order shall take precedence over this Policy.

Nothing in this Policy limits OOC’s ability to undertake any of the actions provided in the Act, Regulations, or the Corporation Rules.

Capitalized terms have the same meaning as in the Act or the Rules.
